LVN Pheil applied the A.E.D. the machine stated to not touch the offender, then that there was no shock administered and to continue chest compressions. Medical then instructed the officers to stick the transport board under the offender and to strap him on. They then proceeded to lift the offender and place him on the gurney for transport. We then proceeded to Medical's Emergency room and Officer Guitron was instructed by LVN Pheil to get on the offender and continue chest compressions while she used the CPR airway bag. SUBJECT: Marcus, Kelly #1128380

At 0349 am I Sgt. L. King was called to respond to 10 building to assist in lifting an offender that was un-responsive and not breathing. I arrived at 10 building moments before offender Marcos, Kelly #1128380 was rolled on a stretcher through 10 gate. I held the door to 10 building open to allow the stretcher roll in to the building without restriction. Said offender was rolled in to the unit ER where Life saving efforts were continued. When the ambulance arrived I ordered the officer assigned to Medical back to open the door and allow the ambulance ent team in to the building. The ent's and their stretcher were escorted to the unit ER. Once they had their stretcher positioned next to the TDCS stretcher I was asked by one of the ent's to Jack up the TDCS stretcher to a elevation equal with their stretcher so that the Offender could be easily transferred to their stretcher. Before we moved the offender from the TDCS stretcher to the paramedics stretcher they had us adjust the offenders positioning on the back board so that his weight was spread equally across the board. The ent Tech then called down on a group of officers and medical staff members transferred said offender to the Ambulance stretcher. Said offender was then strapped to the stretcher and wheeled out of the unit ER into the hall leading back to the infirmary where the ambulance was waiting. While in the hall I was ordered by Lt H. Rodriguez to apply hand restraints and a black box with leg irons so that the offender could be transported secure. The offender was then wheeled out of 10 building and loaded in to the ambulance. At that time I then returned to my duty post in 12 building. Let it be known that ER stands for the 10 building emergency room.

When I arrived COIV Orosco, S was administering chest compressions and COIV Guerra, R was administering breaths using a CPR mouth piece and one-way breathing mask on offender Marcus Kelly (TDC#1128380). Sgt. Torres, M was on scene and was requesting medical to respond with gurney and Automated External Defibulator (AED).

After requesting medical, Sgt. Torres took over chest compressions followed by COIV Guerra, at which point COIV Orosco took over breaths. At this point Lt. Rodriguez, H arrived on scene and took control of the ICS, followed by COIII Munos, T who was operating the video camera. Registered Nurse (RN) Vidarie and Licensed Vocational Nurse (LVN) File then arrived on scene with a gurney and AED which was applied by LVN File, and when administered did not deliver a shock rather instructed to continue compressions.

At this point RN Vidarie requested the offender be placed onto a backboard and moved to the gurney for transport to 10Bld medical. Officers Orosco, Guerra, Guitron, Sgt. Torres and I strapped the offender to the board then loaded him onto the gurney.

RN Vidarie and LVN File then maneuvered the gurney out of Y-pod and into the 19Bld corridor where RN Vidarie requested assistance in administering chest compressions. I ordered COII Guitron to climb onto the gurney and straddle the offender to administer compressions while in transport to 10Bld. I then pulled the gurney from 19Bld to 10Bld medical while RN Vidarie and LVN File administered breathe via a CPR airway bag.

We arrived at medical at roughly 0350 at which point I maneuvered the gurney into the Emergency Room (ER) response room and was relieved by medical staff.

A few minutes later, I relieved Lt. Rodregues, H on chest compressions and continued to administer compressions until relieved by medical personnel. After being relieved, I returned to my assigned duty position.
